Business Council of Alabama's student internship program.

Designed to allow college students to gain hands-on experience, interns will work alongside the team to help serve the Alabama business community. Intern responsibilities will include, but are not limited to, compiling legislative research, assisting with event preparation, supporting member communications, and monitoring social media. This internship allows participants to witness first-hand advocacy efforts and day-to-day tasks performed by BCA in service to our members. Interns will be assigned special projects by staff with an opportunity to learn from each department throughout the internship. Applications are now open. This internship may be completed for school credit.
