## PHYSICAL THERAPY

### Accreditation Process

All programs interested in starting a physical therapy program are required to submit an application for candidacy to the Commission on Accreditation in Physical Therapy Education (CAPTE). Candidacy status is required to matriculate students in a DPT program. An application for full accreditation is required by all candidate programs. This application must be submitted in the second to last semester of the first cohort's program. Each application is followed by an onsite visit by an accreditation team, typically a 2-3 member team to verify information in the report. CAPTE meets two times each year, in April and October. Decisions regarding accreditation status are made during these meetings.
