

## Speech-Language Pathologist (SLP)

### Job Announcement – SLP 01

**Location:** SenseAbilities | Onsite, Warner Robins, Georgia

**Employment Type:** Full-Time, Permanent

**Education Required:** Master's Degree in Speech-Language Pathology

**Work Authorization:** U.S. work authorization required

### About the Role

SenseAbilities is seeking dedicated and compassionate **Speech-Language Pathologists (SLPs)** to join our growing team. We are expanding our services and anticipate hiring **10 qualified clinicians** who are committed to supporting children and families through high-quality evaluation and therapeutic services.

### Compensation & Benefits

- **Hourly Rate:** \$45–\$70 USD
- **Benefits Package:** Medical, Dental, Vision, Paid Time Off, Student Loan Repayment
- **Additional Benefits:** Visit <https://www.senseabilities.net> for full details
- **Work Authorization:** U.S. work authorization required

### Key Responsibilities

- Conduct comprehensive evaluations and assessments to identify strengths, needs, and appropriate intervention strategies for children referred by their primary care providers.
- Utilize informed clinical opinion by integrating quantitative and qualitative data to determine developmental needs and service recommendations.
- Gather assessment information through systematic observation, interviews, curriculum-based assessments, and standardized measures.
- Perform evaluations that may include speech, language, hearing, and swallowing assessments; interpret medical information and diagnostic results (including barium swallow studies) to develop individualized treatment plans.
- Submit typed evaluation reports within five (5) days of completing each assessment.
- Develop and adjust treatment plans based on patient progress, addressing areas such as delayed language, fluency, articulation, swallowing, voice, and communication disorders.
- Collaborate with social workers, physicians, psychologists, and other professionals to design comprehensive treatment approaches.
- Create and implement individual and group activities targeting speech, language, swallowing, and behavioral communication needs.

- Teach effective communication strategies, including voice improvement, sign language, and lip-reading techniques.
- Provide instruction to strengthen oral-motor skills, including muscles of the face, tongue, and jaw, to support improved speech production.

## **How to Apply**

**Direct Hiring Authority:** Submit your **resume** and **cover letter** to: **Elias L. Rodriguez**
