DETERMINATION:

Does the Faulkner University MA/MS in SLP program, which is accredited by ASHA/CAA, meet the educational requirements for initial licensure as a Speech Language Pathologist in Mississippi?

Yes

ADDITIONAL REQUIREMENTS FOR LICENSURE:

Completion of nine months of supervised professional employment; for applicants with a doctoral degree, the supervised professional employment may be met prior to the awarding of the degree if it is part of the course of study. If not, the supervised professional employment shall begin after the degree is awarded;

Passage of the national examination in speech-language pathology or audiology. Completion of nine months of supervised professional employment; for applicants with a doctoral degree, the supervised professional employment may be met prior to the awarding of the degree if it is part of the course of study. If not, the supervised professional employment shall begin after the degree is awarded;

Passage of the national examination in speech-language pathology or audiology.

STATE VERIFICATION:

Has Mississippi verified the above determination made by Faulkner University?

No response as of June 1, 2024

DISCLAIMER:

The institution has used its best judgment to make the determination whether or not this program meets the requirements for obtainment of licensure. Furthermore, this determination is made annually and this page was most recently updated June 1, 2024. It is recommended the student check with the contact information provided above to ensure obtainment of licensure can be achieved.
