

2026 Trace Students Summer Internship

Looking for a meaningful way to spend this summer? Join us in Jasper, AL at the Trace Church interning with our student ministry! The Trace Church was founded 30 years ago when a group of people from other churches came together, desiring to form a church community that was centered around relationships and small groups.

A summer internship with Trace Students is about equipping young adults to lead in a church setting, whether as a future minister, volunteer, or parent. It's a 10 week experience that provides the interns with skills that they can take with them into future job opportunities. Pay is \$3000 for the summer and includes free housing along with no expenses during ministry events.

Responsibilities for Summer Interns include the following:

- Developing and Leading mid-week small group gathering
- Developing and maintaining quality relationships with both students and parents
- Leading and Chaperoning various trips (day trips and overnight) during the summer
- Teaching Sunday Morning class alongside other summer intern
- Develop and assist the student minister in building a strong social media presence
- Plan and execute various outreach efforts during the summer
- Be grounded in personal rhythms of spiritual formation during the summer
- Plan and Execute the “Summer Intern Trip”

This is the first time the Trace Church will have 2 summer interns (they've only had 1 summer intern at a time in the past). This opportunity allows for the interns to help lay the groundwork for future summer interns to flourish at Trace Church for the sake of our students.

Contact the student minister, Nick Winn, at tracesstudents@gmail.com or text him at 615-533-5383 to schedule an interview!

Trace Students

Be seen. Be heard. Be known. Be loved. Belong

About Trace Students: Our group has about a dozen students who show up consistently, though we get up to 20-25 students for our larger events. There is a lot of untapped potential for growth, whether it's students at our church who aren't plugged in to our ministry or unchurched students in our community. Trace Student Summer Interns have the opportunity to help build lasting growth and help instill a discipleship-centered culture.
