

*"We are driven by compassion, foster an enjoyable work culture, and are actively seeking employees who share our commitment to delivering the same level of care and support to students and their families."*

## OUR HISTORY

In 2008, APT opened its first clinic, where the majority of our therapy appointments now take place. After 16 years of working with children in their homes and in our clinic, we identified the need for better quality therapeutic services in public schools. In 2018 we created Applied Pediatrics to meet this need.

## OUR STORY

Our story began in 2002, with the launch of our sister company, Atlanta Pediatric Therapy. George Rosero, CEO created the practice to provide home health services to children. APT provided speech, occupational, and physical therapists to homes and daycare centers.

## OUR QUALITY COORDINATORS GOT YOUR BACK!

### Interview

Interviewing all potential candidates for school-based positions before they are submitted to the school client

### Support

Providing support throughout the year by advising on techniques and other on-the-job concerns

### Orientation

Conducting an orientation for new educators before the school year starts, which provides general information about federal mandates and team building in the school setting

## WHAT WE DO

Applied Pediatrics, Inc. provides qualified professionals for Special Education and ESE Departments in school systems throughout the Southeast at rates that are reasonable and competitive. We provide the personal attention and resources our Special Education Teachers need to grow as professionals, individuals, and administrative assistance which allows them to focus on providing the best possible education

## OUR MISSION

To help children reach their full potential by providing exceptional services in multiple settings from highly qualified and compassionate medical professionals and educators
